WorkSmart Training Program

A Practical Execution System for Clarity, Priority & Daily Control at Work

The Business Concern:

In today's fast-paced environment, individuals face **competing priorities, unclear goals, task overload and rising stress**. While organizations invest heavily in strategy and systems, **day-to-day execution at the individual level often breaks down**, impacting productivity, accountability and engagement.

The Solution - WorkSmart:

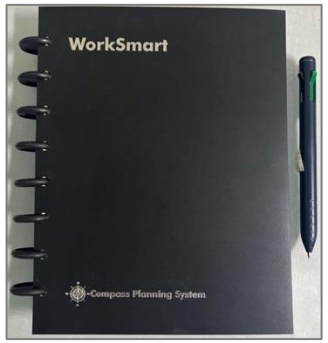
WorkSmart is a training program with **structured execution system**.

The **WorkSmart Training Program** equips individuals with **clear direction, practical prioritization methods and a repeatable daily execution framework** that translates plans into consistent results. The core of the program is the **Compass Planning System (CPS)—a practical planning toolkit designed for daily use**.

The Compass Planning System (CPS) :

The Compass Planning System (CPS) is a **daily implementation system,** that ensures learning translates into **behavioural change**.
It enables individuals to:

- Apply WorkSmart principles consistently
- Track work progress visually and objectively
- Review incomplete tasks without overload or guilt
- Build a habit of planning, execution and improvement



What Individuals Learn:

Participants leave the program with the ability to:

- Create **clear 12-month work goals** aligned to organizational expectations
- Identify **key work areas** and structure tasks with clarity
- **Prioritize effectively** between essential & regular work
- Plan each **workday with intention** and realism
- Execute tasks with discipline and **review progress consistently**
- Build **sustainable work habits,** that reduce stress and improve control

Organizational Outcomes:

Organizations implementing WorkSmart typically see:

- Improved **goal alignment** at individual and team levels
- **Stronger execution discipline** and follow-through
- Reduced task overload and work-related stress
- Increased productivity **without adding complexity**
- A **repeatable execution system** that scales across roles and teams
- All individuals in the department or team following the same system, makes tasks **delegation effective**

Program Structure:

- **Instructor-led sessions** (Total 8 hours) – Single day format or split across two days
- One complimentary **follow-up session to track progress**, address implementation challenges etc.
- Delivered **in-person or online** (*strong preference for in-person engagement*)
- Recommended batch size: **10-30 participants** for deep application

Engagement Options:

To support a phased, low-risk and high-impact rollout of the WorkSmart Training Program, you may choose one or more of the following engagement options, based on organizational priorities and readiness:

- **Program customization** for specific employee groups
- **Pilot workshop** for a selected team or department
- Integration with **existing L&D** or performance initiative

Trainer Profile:

Rakshith Balakrishna
rakshithbalakrishna@gmail.com | LinkedIn Profile : www.linkedin.com/in/rakshith-balakrishna-b0a15698/

Why This Trainer for WorkSmart:

Rakshith Balakrishna is a **seasoned industry professional, trainer and business coach** with over a decade and half of experience spanning manufacturing, operations, quality, consulting, and corporate leadership. He brings a strong execution-focused mindset shaped by leadership roles across large corporates like **Toyota & Genpact**, mid-sized organizations and fast-growing startups.

Having trained **over 400 professionals** across multiple corporates and individual learners, Rakshith combines structured thinking with real-world applicability, making his programs highly relevant for today's dynamic business environments.

Trainer Value Proposition:

Worksmart is **built and delivered by a practitioner** who has led execution, not just advised on it.

Rakshith's experience ensures the program stays **simple, practical and outcome-driven**—helping organizations convert goals into consistent results.
